THE STORY OF YOUR CHRISTMAS TREE

Trees are the kings of the plant kingdom. Your tree is related to the biggest, tallest, and the oldest living things on earth. As kings of the plant kingdom, what could be more suitable than using trees to celebrate the birth of the King of kings, a symbol of hope, of peace on earth good will toward all men. As long as the tree lives the tree plans ahead for new life. This also is like the spirit of Christians everywhere.

Christmas trees pay from one to two thousand dollars per acre. When planted 4½ feet apart 2000, and 6½ feet 1000 per acre. The demand for Evergreen boughs and Christmas trees is increasing each year. A few years ago we were cutting 30 million trees, this has increased to about 45 million trees at present.

Christmas Tree Species

SCOTCH PINE — Most popular Christmas tree and ornamental variety. Fast growing.

AUSTRIAN PINE — Used as Christmas tree and ornamental. Can be left for timber. Moderate growing.

AMERICAN RED PINE — Limited use as Christmas tree. Good timber variety for some sections. Moderate growing.

WHITE PINE — Limited use for Christmas tree and ornamental. Widely used for timber. Moderate growing.

WHITE SPRUCE — Used for Christmas trees and ornamental. Used also for pulp and timber. Moderate to slow growing.

NORWAY SPRUCE — Used for ornamental and Christmas trees. Can be used for pulp and timber. Fast growing.

COLORADO SPRUCE — Ornamental and Christmas tree. Slow growing.

BLACK HILL SPRUCE — Ornamental and Christmas tree. Slow growing.

BALSAM FIR — Symmetrical, fragrant. Flat blue-green needles. Mature height 50 feet.

DOUGLAS FIR — Soft, dark green to gray-blue needles. Rapid grower. Mature height 40 to 60 feet.

Care of seedlings—Remove from crate, dip roots in thick mud, cover with dirt in shallow trench. You can plant your tree when convenient without loss.

OUR PRICES ARE FROM 30% TO 50% LOWER THAN MANY OTHERS
